Entrepreneurship Mindset	Entrepreneurship Skills
 <ul style="list-style-type: none"> Enabling the students to think or do something new Building Curiosity to think of solutions to the challenges and problems Building Confidence to work on solutions, despite difficulties and failures Building Leadership Qualities 	 <ul style="list-style-type: none"> Training the students in different facets of business Helping them learn accounting for profit and loss in business Making plans for expanding the business, marketing, customer service, etc.

EMC Learning Model

Inspiration:

Learning by Motivation

Reading stories of known personalities who have practiced entrepreneurial mindset through their journey.

Experience:

Learning by Doing

Doing the activities individually or with friends, asking questions, finding answers by doing and improving one's understanding.

Reflection :

Thinking about Experience

After doing the activity, reflecting on the experience, one's observations and questions, and based on them, preparing for new experiences.
